

FOR MEMBER OF THE CITY COUNCIL-District 3

PAUL NAGENGAST

Age:

Occupation: Civil Engineer

To live, work, and play in Half Moon Bay.

My name is Paul Nagengast, and I am honored to be your candidate to be a member of your City Council representing District 3 for the City of Half Moon Bay.

My journey in Half Moon Bay began over 20 years ago as your City's Public Works Director with my first charge to secure funding and commence construction of the Highway 92 project within the city. That project process opened my eyes to the passionate involvement the community possesses in protecting our way of life. Likewise, recent project approvals have indicated our budget deficit and limited infrastructure requires a delicate balance between growth versus quality of life.

If elected, my commitments are to improve the City's financial stability, provide for pedestrian, bicycle and vehicular safety, especially along the Highway 1 corridor, ensure consistent City policy and regulation implementation and maintain local control for City decisions. I believe that by focusing on safety and living within our means, we can achieve significant progress and continue to grow as the coastal community that attracted us to Half Moon Bay.

Thank you for considering my candidacy. Please go to www.PaulForHMB.com for more information.

/s/ Paul Nagengast
